Subject: RE: Columbia Falls Aluminum

There was a link to Appendix F of the Site Reassessment report on the Drupal document page. It is located on the FTP server because it was at the time too large to upload into Drupal. OEI has since increased the maximum file size to 1 GB. It can be input to SEMS via ExpressLink.

Nothing needs to be scanned. The file is in this folder: <ftp://ftp.epa.gov/r8/Columbia-Falls-Aluminum-Reduction-Plant/>.

I found two documents in SEMS that were on the old web page (see below). The Site Reassessment report is a single pdf in SEMS. It was broken into 7 pieces on the old webpage. We might not have to have it broken up on the new web page. Appendix F of the reassessment is missing on the SEMS version and was not included on the old webpage. If you want it included, it may need to be scanned from a CD that is probably in Denver.

I attached pdf copies of the Fact Sheet and the letter from Mayor Barnhart for someone to code into SEMS. They will also need to be attorney reviewed. The Federal Register document was not on Drupal (where the old webpages reside) so I'm not sure what it looks like. There are 3 documents in SEMS with the 3/26/15 date (1547739, 1547740, and 1547741). Someone will need to determine which document to use.

Let me know if you have questions. If you want to process the 3 documents that are not on SEMS through the Montana records center, let me know. Otherwise, I'll assume Denver will process them. When they are all in SEMS, I will create a special collection and publish them to the new webpage.

SEMS#

	Fact Sheet, June 2015
	Federal Register proposed rule for listing on the National Priorities List, March 26, 2015
1547742	Letter supporting NPL proposal from Montana Governor Bullock
	Letter supporting NPL proposal from Columbia Falls Mayor Barnhart
1288208	Columbia Falls Site Reassessment Report, April 4, 2014

I'll check to see if these documents are in SEMS-RM. If not, they will need to be attorney reviewed.

All,

Mark gave his OK, so we are good to go on this. I talked with Bill, and I'll will be working to populate the rest of the page.

Cynthia and Mike,

I'm the Records Manager in Montana. I have been working with the Montana RPMs to update parts of their new site webpages. Would you like some assistance updating the new Columbia Falls Aluminum webpage? See the new page at http://cumulis.epa.gov/supercpad/cursites/csinfo.cfm?id=0800392#_ga=1.240315907.1681807572.1439328684

The part I have been working on is the site documents linked to the pages. I can build a collection in SEMS of the documents you had on your old webpage. That collection can then be published and made available on your new webpage. The following documents (7 pdfs) were on your old page.

Site Documents

[Fact Sheet, June 2015](#)

[Federal Register proposed rule for listing on the National Priorities List, March 26, 2015](#)

[Letters supporting NPL proposal from Montana Governor Bullock and Columbia Falls Mayor Barnhart](#)

[Columbia Falls Site Reassessment Report, April 4, 2014](#)

Let me know if you would like my assistance or if you have any questions.

Thanks,

David Sturn
